

# EasyKey<sup>®</sup> GAS Meter Box Key

Making gas safety easy, accessible, and possible for everyone

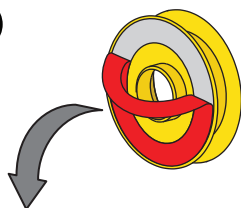

## How to install

1

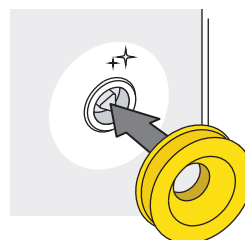

Clean the area using the wipe.  
Wait 2 minutes

2

Peel the backing from  
the collar

3

Press the collar  
firmly onto the door

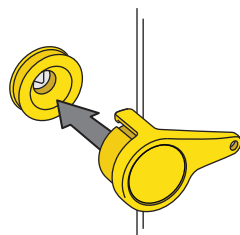

4

Wait at least 30 minutes  
before using the EasyKey

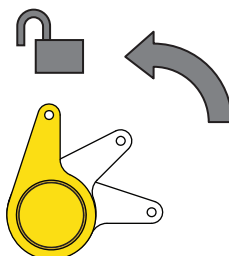

## How to use

1

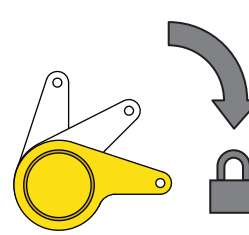

Push handle onto the collar  
until it clicks

2

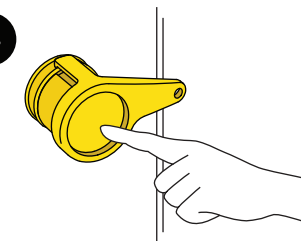

Rotate the handle to unlock  
and open the door

3

When finished, rotate the  
handle to lock the door

4

Push the button to release and  
remove the handle

### IMPORTANT INFORMATION

EasyKey<sup>®</sup> works with universal gas meter boxes using keys with 10mm triangular profile. Operating temperature: -20°C to +60°C
